

Education for Employment Plan

What is Education for Employment (E4E)?

Education for Employment was established in 1985 in response to the growing concern over the number of youth who failed to make a successful transition from school to post-secondary endeavors.

Chapter PI 26, the administrative rule for this program, was revised and became effective on July 1, 2004.

On June 30, 2013, Wisconsin Statute 115.28(59) was signed to require implementation of academic and career planning (ACP) statewide and beginning in the 2017-18 school year that all pupils are enrolled in grades 6 to 12 in a school district.

Education for Employment shall incorporate applied curricula; guidance and counseling services under par. (e); technical preparation under s.118.34; college preparation; youth apprenticeship under s.106.13 or other job training and work experience; and instruction in skills relating to employment.

What is PI26?

PI 26 is a state law that asserts that school boards of school districts in Wisconsin “Shall provide access to an education for employment program approved by the state superintendent. The purpose of education for employment programs is to prepare elementary and secondary pupils for employment, to promote cooperation between business and industry and public schools, and to establish a role for public schools in the economic development of Wisconsin. This chapter defines education for employment programs, describes the process for approval of education for employment plans, and establishes approval criteria for education for employment programs.”

Postsecondary Enrollment Trends

Breakdown by type of institution Class of 2021

Elementary E4E Services

Staff within the SDMA collaborate across content areas to prepare elementary and secondary pupils for future employment. Examples of this include, but are not limited to.

- Field trips to area business, farm city days, and municipal services.
- Guest speakers related to classroom activities
- Partnerships with Junior Achievement
- Early career interest exploration as part of guidance lessons

6-12 E4E Services

What is Academic and Career Planning?

Academic and Career Planning, or ACP, is a student-driven, adult-supported process that helps students create and cultivate their own unique and information-based visions for post secondary success, obtained through self-exploration, career exploration, and the development of career management and planning skills.

Staff within the SDMA are committed to engaging parents and community members to support ALL learners as they explore learning opportunities allowing them to becoming college and career ready.

School Services that Support ACP (Academic and Career Plans)

- CTE Courses
- Required and Elective Courses
 - Middle School, High School
- Career Planning Conferences
- Counseling Services
 - Middle School, High School
- Work Based Learning
 - Job Shadows
 - School Supervised Work Experience
 - Youth Apprenticeships
 - Industry Certifications
- Postsecondary Enrollment Options
(Offered within the SDMA)
 - Early College Credit Program
 - Start College Now Program
 - Articulated Courses
 - SDMA/CVTC High School Academies
- Available Scholarship Opportunities

Menomonie Middle School ACP Scope & Sequence

Our primary vehicle for delivering ACP information at the Menomonie Middle School will be CARES time. Each grade level will be having 3-5 ACP activities per year. General Topics for each grade level include:

6th grade: Introduction to ACP Process, Goal Setting, Xello Interest Inventories, Educational Planning related to Goals.

7th Grade: Revisiting ACP Process, Xello Learning Styles, Work Values, Resume Building

8th Grade: Transition Planning Using ACP process , Using Xello Interest Inventories and Skills in Career Exploration, MHS Course planning using personal ACP Plan

Career Exploration - Xello

Students will use Xello to uncover personal learning styles, individual interests as well as, abilities and aptitudes. This information will guide them throughout the Xello program leading to occupational research and individualized academic career plans. Throughout the journey, students will research and apply for post-secondary education options; apply for scholarships and financial aid; complete resumes and cover letters; participate in mock-interviews and job shadows; all while developing an electronic portfolio.
