

When we have the courage to make our government so that it is “of the people, by the people and for the people,” we build communities of healthy people living on a healthy planet. For democracy to work it depends upon people who recognize one another as neighbors caring for one another and for the shared place where we live.

—Dr. Mark Neumann
Pediatrician,
running for Congress in
Wisconsin’s 3rd District

I’m asking for your support
in Wisconsin’s upcoming
Democratic primary for the
3rd Congressional District on
August 11, 2020

*Vote on August 11th
for healthy people
and a healthy planet.*

I BELIEVE IT IS BEST TO LEAD FROM THE FRONT AND NOT THE BACK. It is best for an elected official to be a resource and a catalyst to promote honest, informed and clear political conversation within the community that he or she serves. **Votes are not things. Votes are people.** Every person has concerns, hopes and dreams. Every person has a voice and that voice needs to be heard. Every person chooses to give his or her vote for the person who is best able to hear his or her voice and share those concerns, hopes and dreams. I will be the person who listens and I will be a representative for ALL my constituents, fighting for the people in my community.

MEDICARE FOR ALL

Single payer, publicly funded, national healthcare insurance is the most economical and most equitable way to achieve full healthcare services for all people.

I support Bernie Sanders's version of Medicare for All. We need to get the profit incentive out of medicine.

ANTI-MILITARISM

We need to engage in robust and dynamic international collaboration and diplomacy in place of militaristic interventions as a default response to global security threats.

I support multinational engagement for the management of international security threats. I will strive to bring ALL our troops home from unilateral adventures.

CLIMATE

Our country needs to be on the vanguard leading the way within the community of all nations on earth to mount an effective response to our climate change emergency.

I am in favor of the Green New Deal and will help bring green jobs to Wisconsin.

RESTORE OUR DEMOCRACY

The disparity of wealth and power among our citizens is our greatest threat to successful democratic government. For the sake of continuing our democracy we must respond effectively to resolve this threat.

I support overturning Citizens United and I will vote for a wealth tax.

I served as a Franciscan brother for twenty years with six of those years as a medical missionary in the central African country that was called Zaire at the time. I served as a pediatrician for thirty-five years while raising a family here in the La Crosse community for the past ten years. I want to continue serving my community by helping to make democracy work for all of us. I believe good governance makes it possible for people to live together so that we all can thrive and live more than simply survive.
